

Thejaswini C.R.

📌 Career Objective:

A motivated **Developer** with proficiency in **full-stack development, algorithm design, and problem-solving**, seeking to secure a challenging position. I aim to utilize my expertise in **C, Python, Frontend and Backend Technologies, SQL** to contribute to innovative projects while honing my skills in a dynamic corporate environment

🎓 Education:

B.E, Bapuji Institute Of Engineering And Technology, Davangere

November 2021 — August 2025

Computer Science and Engineering, CGPA Aggregate 8.30/10

Pre University, Sri Siddaganga Pu Science College, Davangere

PCMC's-Secured 92%

ELEMENTOR, Bapuji Higher Primary English Medium [CBSE] School, Davangere

Secured 88.4%

📖 Courses:

Python Programming,Hackerrank ,Issued Jan 2023

MongoDB in Python,MongoDB University ,Issued Jan 2024

Problem Solving Through Programming In C,NPTEL ,

Issued Jan 2023

Introduction to Gen AI , LLM's , Prompt Design in

Vertex AI,Google , Issued Jan 2024

AI Foundation Certification, Infosys Springboard,

May 2024

Postman API Fundamentals, Let's Upgrade , June 2024

Details

Skills

- C, Python, Java
- HTML,CSS,Javascript, React JS,Python Django Framework
- Data Structure & Algorithms,SQL
- Agile Methodologies
- Problem Solving ,Algorithm optimization ,Team Collaboration, Communication

Languages

English

Kannada

Hindi

Telugu

Key Strengths:

- Problem-solving and Analytical Thinking
- Strong Communication and Collaboration Skills
- Time Management and Leadership Qualities
- Adaptability and Continuous Learning

Areas of Interest:

- Artificial Intelligence
- Cloud Computing
- AI Devops

Extra-curricular activities

- Exploring new technologies about Cyber Security and Ethical-Hacking
- Top 3rd in District Level Abacus Championship. Top 2 in district level Horse Riding.

Hobbies:

- Painting , Badminton
- Technology Exploration

📁 Internships

Full Stack Web Development With Java and MySQL at I Sans Technologies, Davangere

April 2024 — May 2024

Web Development and Designing , Intern at Oasis Infobyte, Davangere

February 2024 — September 2024

AI Devops and Tools at VTU WIINER Program: Rooman Technologies

September 2024 — January 2025

📁 Projects:

"Feel free to explore my portfolio to see some of the projects I've worked on:

<https://thejaswinichinivar.github.io/Portfolio/welcome.html>"

Project 1: Shortest Path Algorithms Visualization

- **Technologies:** Python, Tkinter, PyCharm
- **Description:** Implemented **BFS, Dijkstra's, A*, and Swarm Intelligence** algorithms for optimal pathfinding across diverse graph structures. Developed a GUI-based visualization tool for performance analysis.
- **Role:** Project Lead.

Project 2: Peer-to-Peer learning platform

- **Technologies:** HTML,CSS,Javascript.PHP
- **Description:** Developed a learning platform with login and course, tutor selection with interactive dashboard.
- **Role:** Full-stack development, front-end.

Project 3: Full Stack Online Complaint Registration System

- **Technologies:** HTML, CSS, JavaScript, Java, MySQL
- **Description:** Developed an online complaint registration system with **user authentication** and **database management** using Java and MySQL.

- **Role:** Back-end developer and database management

Project 4: Human Activity Recognition System

- **Technologies:** OpenCV,Python,Deep learning models, Numpy.
- **Description:** This project involves developing a human activity recognition system using a pre-trained deep learning model (ResNet-34) and OpenCV.
- **Role:** Coded Python.

🏆 Achievements:

- Worked as **College Ambassador Intern** at **Rooman Technologies** during VTU WINNER Internship Program organised in final year of BTech education.
- Participated and continued till Round I:Internal Hackathon for FKCCI Manthan ,Innovation for Business Plan Presentation.

- **I hereby Declare that the above information is true to the best of my knowledge and belief.**
